I feel certain that everyone knows there is no independence in the EU. European politicians have condemned patriotism the leading masters in the EU Germany/France want more integration. This obviously means history, culture and identity must be phased out. Books historical records will have to be destroyed, anything that evokes memories of the past will be phased out. Flags, instruments, monuments and landmarks that could give an inquisitive, curious mind an interest in the past will be put in museums (against vandals) will be the excuse before they discreetly vanish (long period of renovation) to dull the memory
